How Itpools' Profitability Grows

Due to its work with **DEX** platforms and algorithmic liquidity distribution strategy, Itpools has demonstrated steady growth since its launch and is increasing its turnover. The forecast figures take into account the limitation of the number of investors on each tariff and scaling through the affiliate program.

Choose a plan

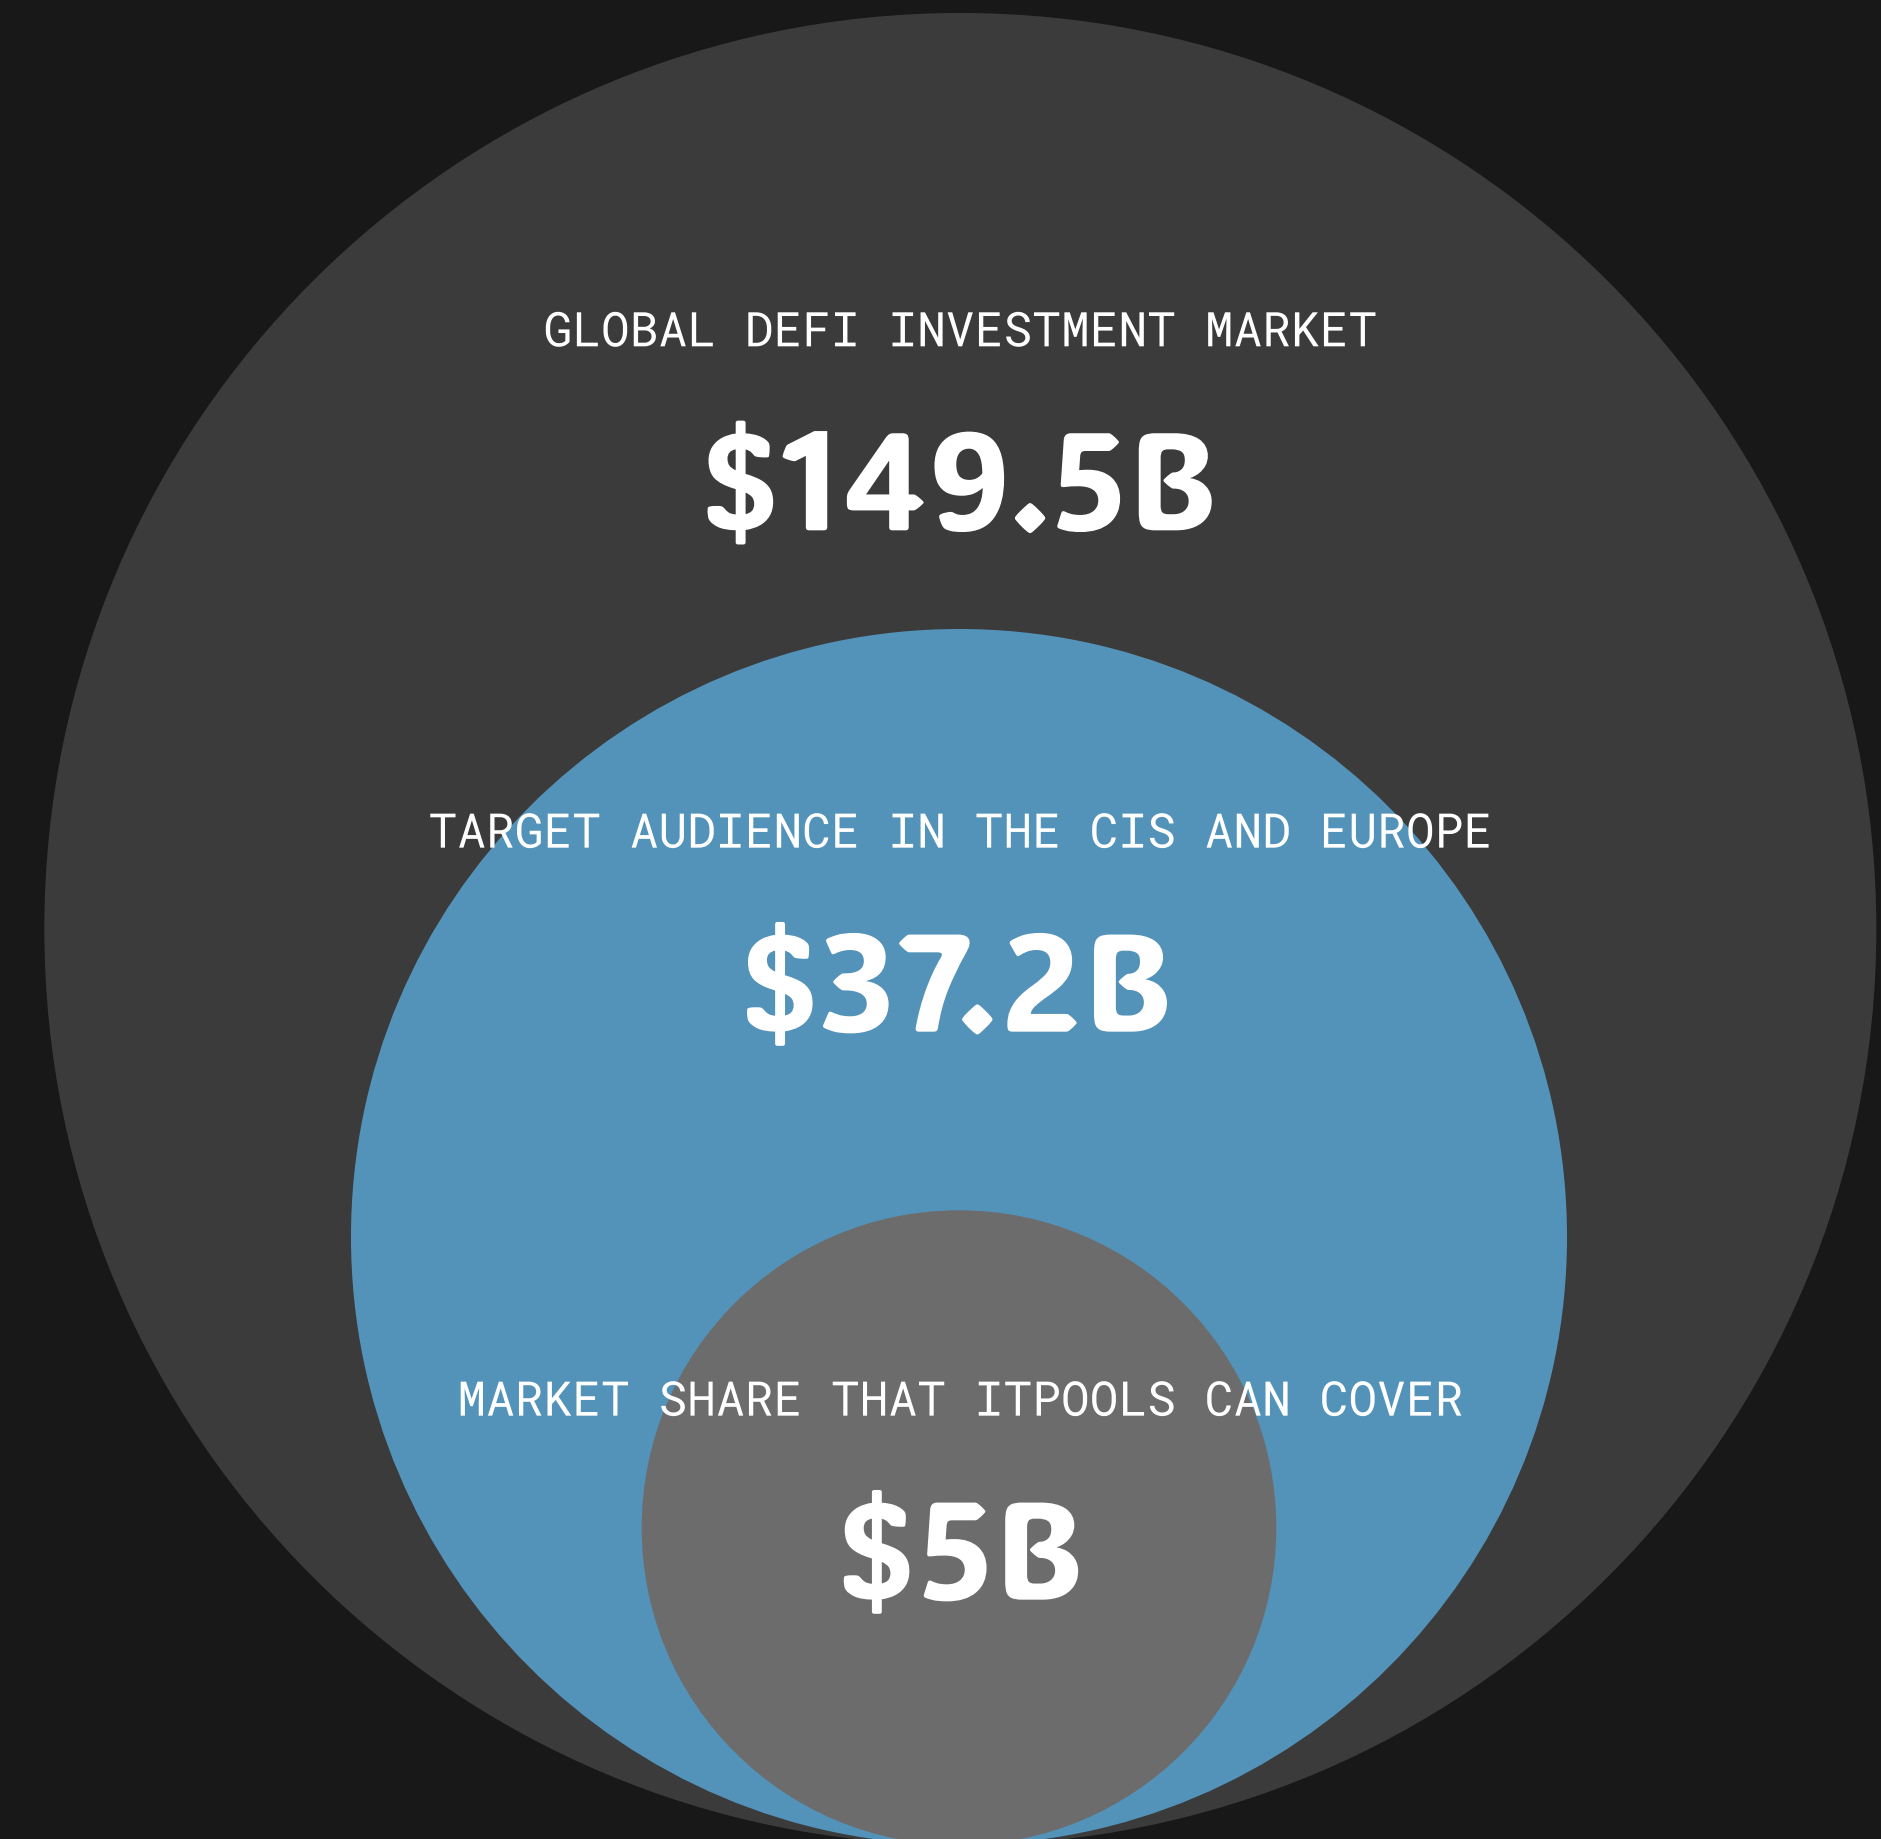

PRIMAL	PROGRESSIVE	BOOSTED

The decentralized investment market
in 2025 exceeds **\$149.5 billion**.

The Itpools platform is aimed at a part
of this market, working with an active
and involved audience around the
world.

We limit the number of investors on
each tariff - to maintain stability and
quality of service.

Now is a unique time to enter at the
start.

Taking the first step is easier than it seems

Place your cryptocurrencies in liquidity pools of 300 leading decentralized exchanges and earn rewards for each swap transaction.

Get 7% of the invited user's deposit.

Get the first rewards within 24 hours after the deposit.

 **Registration takes no more than 1 minute**

 **Everything works automatically - no need to understand cryptocurrency**

 **If you have any questions, you can always ask them in the support chat**

“Simple actions and I get profit. I registered, chose a tariff - and the next day I saw the first accrual. The platform really works!”
